

ESKOM EXPO FOR YOUNG SCIENTISTS

JUDGE'S PLEDGE

I hereby pledge that as a judge at an Eskom Expo for Young Scientists event, I will

- act in a positive and ethical manner towards every student, co-judge and Expo official so that they are treated fairly and respectfully. This extends into the way in which I judge a project and interact with students and with my colleagues in the judges' panel.
- respect that the ownership of students' research lies with them. I undertake to immediately notify my convener or the Judges Coordinator if I find any ethical issues within a project.
- keep all discussions and decisions about results, including scores and awards, confidential.
- not harass anyone I meet at Expo in any way especially with respect to: age, gender, race, religion, school, sexual orientation, marital status, disability, wealth, or ancestry.
- notify the chief judge immediately if I become aware of any circumstance that would prevent me or another judge from evaluating a project fairly.

I have read and will abide by the Eskom Expo for Young Scientists Code of Conduct and am aware that in the event of any transgressions, I

- will be asked to remove myself from the judging panel and from the Expo event
- may be prevented from any future involvement in Expo activities

I have read and understood this pledge.
